

YWAW
(Young Women's Action Web)

This spiritual and experiential event will provide a travel experience that will introduce participants to mission work in San Diego County.

As a participant, you will be visiting sites and experiencing ministries that address issues of hunger, homelessness, poverty, mental health, the socio-economic issues of migrant workers and their families, and programs that address seniors and families impacted by violence and children at risk.

This event will enable and train participants to return to their own communities to replicate this WAW experience in their local region. The logistics and organizational aspects of creating a WAW experience will be addressed. Funding issues will be discussed. Needs assessment tools will be introduced. Information on how to organize and empower community will be offered.

Participants will return home ready to turn passion for service and compassion for our communities into action.

Sponsored by the
Women of the Pacific
